exe at 0x0EB8E200</S> <6> C:\Program Files (x86)</6> <7> Windows</7> <8> 7_5_7600</8> <9> 6.1.7600.2</9> I think this can be related to this AE CC version problem. Please, help me with these AE CC crashes? It is very annoying and the system is always in slow mode! I have opened a support case for this error, but I have not received any answer yet. When I get back, I will update this topic. Thank you for your attention, kind regards, PasiGTT I have had the same problem but the crash when downloading a new version of the AE CC 2013 is far more frequent. This is a problem that has not been resolved or much has changed. I am still using CC 2013. I have been using this for 3 years and it has been a nice program for my needs. I found a quick fix for the 5 seconds crash and I have removed the AE CC 2013 trial version until the problem is solved. When I do that the AE CC 2013 crashes as soon as I open the program. Last night I just downloaded the new AE CC 2013 update to try it out and it crashed after I opened it. I have tried to reload the program several times with no luck. AE is the most important program I have in my computer. I can't work in my computer while it is frozen or unusable. Manifolds and manifolds with applications (P.M. Morse) Manifolds and manifolds with applications (P.M. Morse) is a book written by Otto Menzel in 1938, concerning the differential topology of manifolds. The book won the Bayer Award of the National Academy of Sciences and the Chevalley Award of the American Mathematical Society in 1939.
